

Outsource your 2016-17 timetable construction to us and we guarantee you will like the result - or you pay us nothing

All schools are different but they all need a timetable that delivers the curriculum efficiently and effectively.

'I consider a well constructed timetable to be worth at least one GCSE grade for each Year 11 student' **Head - All Saints Kirkby**

Traditionally timetable construction has been the preserve of the senior leader/curriculum deputy who can spend much of their summer term constructing the timetable. However increasingly schools are seeing the value of outsourcing this key task to experts. It makes sense for two crucial reasons:-

1) Better use of school resources

A senior leader on £61,623 (L20) costs the school nearly £400 per day including on costs. Our professionals work on site for £350 per day. Senior school leaders are there to lead the school in its core purpose of raising achievement. Writing the timetable can be a distraction from this. Better to deploy each professional to do the job they are best at.

2) Quality of Timetable

Schools who have chosen to outsource find their timetable is improved, staff are deployed more efficiently and the curriculum delivery enhanced. If you don't agree that your timetable is improved then you pay us nothing.

'For the last two years we have outsourced our timetable construction to Proficio Education. We should have done it sooner! The result has been amazing - staff, students and Ofsted agree.' **Deputy Head Notre Dame Liverpool**

If you choose to outsource your timetable construction to Proficio Education we promise you the following:-

- **One of our timetable specialists will work with you on site until the construction is complete.**
- **The timetable will be delivered on time and within the price quoted.**
- **If you are not entirely satisfied you pay us nothing.**
